Read me! Most of our spatial data is FREE

You may not need to fill in a Data Request Form! A large store of Department of Environment and Natural Resources (DENR) spatial data is available for free public download via:

NR MAPS Learn how to download spatial data from the NR Maps user guides.

FTP SERVER Spatial data bundles are available for direct download from our FTP server and includes spatial data, metadata, reports and maps. This document contains a list of download links. Caution: the zipped spatial data bundles may be very large in size.

View details about available DENR data in the 2016 spatial data catalogue.

About DENR Digital Data Requests

Use this form to request data not available for download or any other special requirements.

- All DENR data requests must be accompanied by a completed Digital Data Request Form. (page 2)

- Once received, the data request will be placed in a queue for processing. Data will be supplied within **10** working days, dependant on request work load. Larger data requests may take longer.

- Datasets up to 7MB are emailed. Larger files are delivered via our FTP site. Instructions how to use the FTP site will be provided. Mailing the data on CDs can be arranged upon request.

- **Data extraction fees** are $110.00 per hour (GST inclusive). There is no fee for the data itself.

- **Additional information** is included with the data (metadata, reports and maps where available).

DENR digital data is usually supplied under the Creative Commons license, and must be attributed:

Data supplied by Department of Environment and Natural Resources © Northern Territory of Australia

If data is deemed to be sensitive, or requires specific purpose approval by the custodian, a Digital Data Agreement will be required. The agreement will describe the data and any restrictions for use. It must be signed by an authorised person from your organisation, witnessed and returned to the data request officer. Scanned and emailed documents are accepted.

How to request digital data

1) **Complete the form on page 2, including:**

- Your contact details, postal address and ABN number.

- The area of interest - Use NR Maps NT for basic map creation or to find named localities, parcel number search and coordinate locations.

- List datasets and also the format required. ESRI Geodatabase, ESRI shapefile and MapInfo tab are our standard formats but others may be prepared upon request.

- Any additional information that may facilitate the request.

2) **Forward the completed form to:**

Digital Data Request Officer, Spatial Data and Mapping Unit

Department of Environment and Natural Resources

Email   datarequests.DENR@nt.gov.au
Phone   +61 (08) 8999 4577

DENR Digital Data Request - Form   * All parts highlighted in red must be completed

Email completed form to datarequests.DENR@nt.gov.au

A.	**Client (Licensee) Details**				

Contact details (for billing purposes)**:**	Contact Name:				
	Address:				
	Postal Address:				
	Telephone:		Fax:		
	Email:				
Client requesting data (You):	Company or Person: Trading As:				
	ABN:				
On behalf of (Is this a contract job? If so, write details here)**:**	Company or Person: Trading As:				
	ABN:				

B.	**Describe the data you require**

C.	**Describe your area of interest using <u>ONE</u> of the options below**	
1.	Location Map showing area of interest is supplied.	
2.	Boundary polygon in spatial data format is supplied. **Please zip all files if attached to email.**	
3.	Locality or Parcel Number:	
4.	Bounding coordinates of area:	

D.	**About the data we will provide to you**				
Select dataset FORMAT:	ESRI Geodatabase	ESRI Shapefile	MapInfo TAB	Other format:	
	CAD (MicroStation, AutoCAD)	MS Excel	ASCII (csv, txt)		
Please describe your intended USE OF DATA:					

E.	**Any other comments or special requests**
