

## ASWAC members updated 18<sup>th</sup> October 2018

Chair	Currently vacant
Glenn Marshall	Substantial experience in design and operation of water and energy efficiency programs (Alice Water Smart; Alice Solar City). Works as Director of Infrastructure & Works, Central Desert Regional Shire. Alice Springs rural area resident, 30 years. Interested in urban water conservation and water reuse, especially for horticulture.
Wendy Stuart	Regional land management officer with Central Land Council. Professional interest in the protection of Indigenous cultural sites and places associated with water. Personal interest in sustainability of water use in Alice Springs.
Jimmy Cocking	Director (CEO) of Arid Lands Environment Centre (ALEC), responsible to ALEC members and other stakeholders for holding decision makers accountable on environment/sustainability matters. Long term member of ASWAC (8 years) including contributing to instigation of Alice WaterSmart and other initiatives that the Committee spawned. Interested in how ASWAC can effectively engage the broader community, remarked on the value of stakeholders working together.
Richie Hayes	Horticulturalist; water licence holder. Owner and operator of Rocky Hill Table Grapes with about 60 ha of grapes and smaller area of other crops. Fifth generation Centralian, from pastoralist family. Interested in using water wisely because of high cost of pumping water and importance of not spoiling the aquifer.
Eli Melky	Elected Councillor for Alice Springs Town Council. A direct link from ASWAC to Council, able to communicate with Council about issues raised by ASWAC. Personal interests in the link between water and economic opportunities, and including opportunities in horticulture; and concerned to ensure mining and pollution do not impact on water.
Veronica Lynch	Arrernte woman, local to Alice Springs area; cultural advisor and cultural mentor/facilitator her family homeland at Black Tank, Yamba station. Former representative roles on Aboriginal Benefit Account (6 Years) and Central Land Council (10 years). Special interest in water awareness and safety of water use for Arrernte custodians and for all people of Alice Springs
Robyn Grey-Gardner	Environmental scientist and water quality specialist; experienced in working with people in remote Aboriginal and Torres Strait Islander communities to access and manage safe drinking water supplies; action research, advocacy, policy and program implementation including project management of the Environmental Water Management Review 2012. Alice Springs resident for 17 years. Particular interest in risk management strategies for water supply management.
Rod Cramer	Born in Alice Springs, into a family which has had a long history of always having had to procure, secure and maintain its own water supply (both ground and surface), and still does. A previous ASWAC member with broad interests, particularly in the integrity of the Wangardi Basin (Roe Creek), and the exemptions of mining activities from the Water Act.

Adam Davis

Water Systems Engineer with Power and Water Corporation in Alice Springs (for past 7 years) Involved in management of the bore field, water recycling and wastewater treatment. Can provide information from a public water supply perspective. Alice resident since 4 years old. Personal interests in good water management for Alice Springs.

Robbie Henderson  
(DENR – exec  
support)

Moved to Alice 21 years ago, worked on various water initiatives including design of Alice Water Smart. Led stakeholder consultation for the first Alice Springs Water Allocation Plan. Interested in ASWAC developing the capacity to have meaningful input into implementation and review of the current water allocation plan.
